

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. - 11. (Canceled)

12. (Currently Amended) A driving method for a Thin Film Transistor array, capable of saving power, comprising:

dividing a Thin Film Transistor array frame into a first zone and a second zone; and

driving the first and second zones respectively with line inversion ~~a first driving type~~ and frame inversion ~~a second driving type~~, wherein the first and second driving types are different from each other.

13. (Previously Presented) The method as claimed in Claim 12, further comprising:

implementing an Application Specific Integrated Circuit chip; and

choosing the first mode or the second mode.

14. (Previously Presented) The method as claimed in Claim 12,

further comprising:

grouping the first and second zones grouped into a graphic and non-graphic regions respectively.

15. (Canceled)

16. (Currently Amended) A LCD display, comprising:

an Application Specific Integrated Circuit chip determining the first and second driving types; and

a Thin Film Transistor array, comprising:

a first zone driven with line inversion ~~a first driving type~~; and

a second zone driven with frame inversion ~~a second driving type different from the first driving type~~.

17. (Previously Presented) The LCD display as claimed in Claim 16, wherein the first and second zones are respectively grouped into a graphic and non-graphic regions in the first mode.

18. (Canceled)
